FRUMAN DEFEATS OLDFIELD

PALMER AND HOFMAN WIN OPEN RACES.

FULLY 2,000 people witnessed the opening meet on the saucer track last evening, and the old time hurrahs that have greeted many a winner as he crossed the tape were again in evidence. The evening was just right for good racing, a single spill occurred during the evening, the amateurs getting around the steep banks like old timers, very much to the amusement of everyone who looked on. The main event of the evening was the match race between Barney Oldfield and Fruman, two of the new riders that have arrived here this year.

The race was paced by Johnnie Chapman on a single wheel, both men hugging close until the final sprint when Fruman went out and won with ease in the two first heats, thereby winning the race.

The final of the mile open professional race was won by Johnnie Chapman on a single wheel, both men hugging close until the final sprint when Fruman went out and won with ease in the two first heats, thereby winning the race.

The mile open amateur was taken by Frank Hoffman, the Los Angeles rider, in much the same manner as he did the professional race, winning the race in the two first heats, thereby winning the race.

The mile tandem was won by Ed Smith and Eddie Smith, both of the Los Angeles club, winning the race in the two first heats, thereby winning the race.

After the races Representative J. N. Sharp of the N. C. A. announced that Hoffman and Eddie Smith had been transferred to the professional class, and would henceforth have to compete with the "pros." Sharp said that he transferred the men, as he considered they were professionals in every sense of the word. Smith and Hoffman did a little kicking, but will have to take their medicine, as they have to race.

THE SALT LAKE HERALD, SATURDAY, MAY 31, 1902

Belief Prevails That Americans Will Be Worsted by Englishmen Today.

London, May 30.—The hopes of the Americans which were raised to such a high pitch during the first few preliminary games played by Captain Foxhall Keene's polo team, have been shattered tomorrow, as the opinion of nearly all the polo experts, both American and English, who have watched the practice, is that the English team is sure to win two of the three matches, and retain the American challenge cup. It is doubtful, even if playing at the top of their form, that the Americans will be able to defeat the strong combination which the English players have brought together; but, in addition to this fact, there is not a member of the American team who is playing in his best form, and the American ponies, as well as the men, seem to feel the effects of the long journey.

When the Americans began playing here they showed a dash and vim which thoroughly astonished the English, and the team was freely expressed in the polo pavilion at Hurlingham and Ranelagh that the Americans were the best team that time also favored the Americans, but this is all changed, and the English team are very confident of victory.

The main event of the evening was the match race between Barney Oldfield and Fruman, two of the new riders that have arrived here this year.

The race was paced by Johnnie Chapman on a single wheel, both men hugging close until the final sprint when Fruman went out and won with ease in the two first heats, thereby winning the race.

THREW FLOWERS OVER THE GRAVES OF BRAVE SOLDIERS

London, May 30.—Speaking at Leeds tonight, Lord Rosebery advised the leaders of the liberal party to postpone the announcement of the government's policy until there was some immediate prospect of getting them carried out.

Lord Rosebery said the first and greatest question before the public was peace, which he believed would be announced in a few days. He said he hoped that all might be done to support the government's policy of pacification, but warned his hearers that the ministry was not concluding peace with a crushed foe, to whom no further attention need be paid. The speaker said he hoped the government would be wise enough to adopt a generous policy and convert brave foes into brave friends.

This certainly could not be done, said Lord Rosebery, on the lines heretofore sketched by Lord Salisbury, the premier, who said: "A resolute government might be required for generations."

Referring to the present financial policy of the government, Lord Rosebery said he thought the tax on corn was a prelude to a sort of Zollverein throughout the empire. He said he could not summarize the miss any proposal for the closer union of the British empire, but the advantage must be demonstrated by a Zollverein would necessitate, and that this departure would mean giving up the control of Great Britain's financial system to the British colonies.
